

Statement on Compliance with REACH

We are glad to confirm that our products marketed in the EU are delivered in accordance with the applicable chemical laws, with special reference to the REACH Regulation (EC) 1907/2006, as detailed below.

1. All components of the BMS product are registered, pre-registered or exempted from registration.
2. The Safety Data Sheets for the European Union (EU-SDS) of our products are being updated with the information required by REACH after a component has been registered by BMS or after we receive relevant new information from a supplier. You can download the most recent SDS of interest by following the links given below.
At our customer portal: <https://www.bayerone.bayer.com>
At our product safety portal: <http://www.productsafetyfirst.bayer.com>
At websites of individual business units, e.g.: <http://www.bayercoatings.com/>
3. The content of Substances of Very High Concern (SVHC from ECHA's Candidate List, including those already listed in ANNEX XIV, REACH) above the legal threshold, if any, is being communicated in the EU-SDS. (Separate statement available)

Important notice:

In the case of imports from non-EU countries, any Registration obligations of Importers must be observed.
